## CLOSING THE CANVASS.

THE CONGRESSIONAL CONTESTS. A POSSIBILITY THAT THE REPUBLICANS MAY CARRY

FOUR OF THE SEVEN DISTRICTS IN THIS CITY. The contests in four, at least, of the seven Congressional Districts in this city promise to be sharp, with the chances in favor of the Republican candidates. The VIIIth and XIth Districts are now represented by Republicans. There is a possibility that in addition to these the 1Xth District, now reprocompetitor, John Hardy, being again in the field. Two years ago General Anson G. McCook and L. P.

Frederick W. Holls, of this city, returned yesterday from a two-weeks' speaking tour through North

done during the past few weeks. As a result the Republicans in that State have been better organized than ever before, and there is an excellent chance of electing the Governor and three or more Congressmen. Much good has been accomplished by the Northern speakers who have been industriously engaged for several weeks. The elections in Ohio and Indiana had an electric effect—depressing the Democratic members in the Assembly of 1880. General F. B. Spinola, nominated in the XVII. District, if elected, will add spectacular interest, if no wisdom, to the Assembly of 1881. ocrats on the one hand, and clating the Republicans to a corresponding degree on the other. It has been difficult for the Democrats to get a large crowd together even to hear their best speakers; and, in fact, to my personal knowledge, several proposed big demonstrations had to be abandoned on account of the lack of enthusiasm."

"What has been the character of the Republican meetings ?"

"So far as my observation went, and I was through a large number of counties, the meetings have been well attended. A barbecue was a striking feature of many of them, and large numbers came from great distances. The conditions in North Carolina are more favorable than in most of the Southern States. The Republican leaders are men of the highest social standing, and command the respect of their opponents."

their opponents."

"What is the feeling of the Democrats in regard to the issue of the coming election ?"

"They are despondent. Many with whom I have talked say they would not object to the election of General Garfield if they could feel that it would not increase the hatred entertained by the Northern people toward the South. Most Democrats admit that in event of Hancock's defeat much would be done toward disintegrating the Democratic party in North Carolina. There are unquestionably large Republican gains since 1876. Scores of Democrats were introduced to me who expressed their determination to vote for Garfield."

TAMMANY ON THE EVE OF ITS FUNERAL. GLOOM IN THE WIGWAM-SUPPORTING BENJAMIN WOOD.

The Tammany Committee on Organization met yesterday, Judge Duffy presiding. The roll of the Assembly Districts was called, and the representative of each of the twenty-four districts stated the condition of the Democratic organization under his supervision. According to these reports the Democratic outlook in each district was made to appear more favorable than ever before on the eve of an election, but the true state of affairs being too well known by the members present there was little appliause. General Spinola in a long speech, declared that the Republicans were colonizing repeaters from Washington. A man from each Assembly District was selected to receive at Tammany Hall to-morrow noon the ballots and money for his district, Judge Duffy informing them that they must appear with yelicles large enough to convey both the ballots and the

vehicles large enough to convey both the ballets and the money.

The report of the sub-committee on the Wood-Muller contest in the Vth Concressional District, the Murphy-Benily dispute in the IVth Aldermanic District and the Coggey-Long controversy in the VIIIth Aldermanic District, was read by the chairman, Hugh Donneily. It recommended the support of Benjaroni Wood for Congressman and Matthew J. Coggey for Alderman, but made no recommendation in regard to the difficulty in the IVth Aldermanic District. The report was adopted without discussion.

A MEETING THAT DID NOT TAKE PLACE. It was announced yesterday that, at 3 p. m., there would be a " Grand raily of the Commercial Exchanges, merchants, bankers and business men in favor of the election of Hancock and English, in Broad-st near Beaver-st." Addresses were promised from Horanear Beaverst. Addresses were promised from Hora-tio Seymour, ex-Gavernor Dorsheinner and Colonel Forney. A TRIBUNE reporter started down town at 3 c'clock to attend the meeting. At Beaverst, standing in the mud, shivering, swearing at fee weather and at their hard lines, were probably a dozen doleful, dismal, bedraggied Democrats, evidently a switing the "Grand raily." Some of them were impatient; many were pro-duce. Finally it was learned that the meeting was ad-journed.

JOHN FOX CALM AND RESIGNED. At the Sheriff's office yesterday the friends of John Fox again assembled, and proposed to take action in regard to his expulsion from the Irving Hall Committee. A paper containing some 600 names of members of the Anti-Tammany General Committee was presented, protesting against the unwarrantable action recently taken in regard to Mr. Fox and Jeremiah Murphy. Mr. Fox recommended that the matter should be passed over until after election, as it might create dissension and injure the chances of Hancock and Eng-lish. His advice was accepted.

EX-TREASURER SPINNER CONFIDENT. The Hon. F. E. Spinner, ex-United States Treasurer, writing from Mohawk, N. Y., October 28, to a

friend in this city, says: "We are up and doing. It is Unless all signs fait we shall become them this time, and lay them out with coppers on their eyes. I have never felt more confident of success than now. General Grant is doing its great good. I hope to live to see him Presi-dent in 1885."

THE NEXT ASSEMBLY. SUPERIOR CHARACTER OF THE REPUBLICAN CANDI-

DATES IN THIS CITY. The candidates for the Assembly have probably all been nominated, and an opportunity is thus sented by Fernando Wood, may be carried by the given for voters to scan the list thoroughly before Republican candidate, Mr. Wood's old Democratic election day. Irish citizens of Eastern Maine appears in The Whig and Courier:

AUGUSTA, Mc., Oct. 27, 1880.

My Dear Sir.: I received your friendly letter with much picasure. Let me say in reply that the course of yourself and other Irish voters is one of the most extraordinary anomalies in our political history. Never, probably, since the execution of Robert Emmet has the feeling of Irishmen, the world over, been so bitter against England and Englishmen as it is at this hour. And yet ine great mass of the Irish voters in the United States whil, on Tuesday next, vote precisely as Englishmen would have them vote—for the interests of England. Having seen Irishand reduced to misery and drive. It of despair by what they regard as the unjust policy of England, the Irishmen of America use their suffrages as though they were the agents and servants of the English Tories. The free-traders of England desire nothing so maca as the defeat of Garffield and the election of Hancock. They wish to break down the protective tariff and cripple our manufactures, and nine-tentis of the Irish voters in this country respond with almerity, "Yes, we will do your bidding and vote to please you, even though it reduce our own wages and take the bread from the mounts of our children." There are many able men and many elever writers among the Irish in America, but I have never met any one of them able enough or clever enough to explain this anomally on any basis of logic and good sense. I am glad to see from your exteemed favor that the subject is beginning to trouble you. The more you talked of it the more you will be troubled, I am sare. And you will be driven finally to the conclusion that the preserving of the Irish in this country depends as largely as that of any other class upon the maintenance of the financial and industrial policy represented by the Republican party. Very truly yours,

In the evening he was removed in the fever wagon to the Recention Hospital, at the foot of East Sixteenth-st. The house in Front-st, was disinfected as a measure of precaution.
